Local governments and Democracy facing the Crisis

Nara Prefectural University

Japan is presently enveloped in a thick, even dangerous, fog, which is obscuring the way forward. It is for this reason that we present these studies, incomplete though they may be, with some content that is still evolving. We need insights that can light our path like a lantern in a wilderness. In Nara, the original archetype that begot the Japan we know today still remains, and may shed light on contemporary issues we face.
